

Leadership Skills, Everywhere

We are a technology-driven solutions provider dedicated to supporting leaders in building smarter systems, upskilled workforces, and accelerating innovation.

Adaptive Skills

Creating leaders that communicate effectively, have excellent customer service, and adequately manage their time and priorities.

Customer Employee Onboarding

Improving the initial (and ongoing) experience with a company that sets expectations, skillsets and “rules of the road” clearly

Organization Facilitation

Strategic facilitation with senior leaders to align on key and critical initiatives, including AI

Motivational Speaking

Offering inspiration to Technical Teams and Human Resources teams around the importance of human in the age of tech.

Why Choose Us

Immersive Learning

We use emerging technology like Virtual Reality (VR) to improve the learner experience

Commercial and Federal Expertise

Nearly 20 years of public and private instructional design and change experience with Fortune 500s

Co-Creation Centric

A skilled team with the right experience to shape your solution the way that’s best for you.

Accelerating People Skills Through Emerging Technology

“The materials have been engaging, our conversations have been thought-provoking, and the sounding board she provides has truly helped me stretch and grow as a leader.”

Elizabeth Suarez

Vice President, enCOMPASS
